

PLEGIUM Smart Emergency Button (SEB)

The Silent alarm for your personal safety and peace of mind

Plegium SEB is a **Personal Safety Device** you connect via Bluetooth to your phone. The device is designed to be easy to use and only takes 1 minute to set-up. You simply download the Plegium App (Free) from the App Store or Google Play, then add up to 5 emergency contacts (Free) and finally connect the device to the App by adding the 4-digit code found on the backside of the device. Now you're all set! The product comes with a 4-year no-charging battery life. Plegium deliver peace of mind to both user, family, and friends.

How does it work?

To trigger the silent alarm, simply push and hold the 2 buttons for 2 seconds, a green light will show on your device, and your emergency contacts will receive a free phone call informing you are in danger and a free text message with your exact GPS location on a map.

Areas for use

Caregiver pager for elderly or anyone who needs help quickly. Panic alarm for adults at work or when walking/running/cycling home after a night shift, teenagers and college students out with their friends or at school/campus, young children walking to-from school.

Since the alarm works in all countries it's the perfect personal safety device to bring when travelling.

Examples of businesses who could benefit from Plegium SEB

Real estate agents, Property Management, Banks, Restaurants, Retailers, Hospitals, Private security companies, Uber/Lyft drivers, etc.

Professional Monitoring Service

Plegium also offer a **Professional Monitoring Service** (optional paid service \$4.99/month). In the event you trigger the device they will call you, and if you do not respond or answer and say you are in danger, they will immediately contact the police and provide them with your GPS location.
